

OMEGA+

State-of-art helicopter helmet
(chosen by HEMS for all their
London medical rescue a/c)....

- Designed and CE made to the tough European flying helmet specification EN966, giving you **DOUBLE** the head protection of other helicopter helmets..
- Ultra safe, with smooth shell, minimising "catch points"
- Ultra quiet, (superb ANR too)
- Ultra comfortable, with easy perfect personal fitting
- Ultra light, around 1300gms for typical GA helmet
- Superb comms. electrics, to ALL standards, with economic ANR option (30 hrs flying between on-board battery charges) and 300m range wireless intercom option
- Superb value, giving you many advantages at about 1/2 the cost of the other helicopter helmets.....

We also make the OMEGA+ DUAL-VISOR model (please ask us for its data sheet)

TINTED or CLEAR USAF MIL spec. visor
