

Comunica SEACOM+ marine radio intercom system (as fitted to RNLi's rescue hovercraft)

datasheets\rnlihc

SEACOM+ is FULLY waterproof and is often used with DELTA+ helmets in RIBs

- IC-M503 Marine VHF radio
- Backup radio fist speakermic
- "MAX" voice-control noise set switch
- SEACOM+ intercom/radio interface unit
- Crew headset stations
- SEASET+ waterproof headsets
- Radio PTT button on control stick

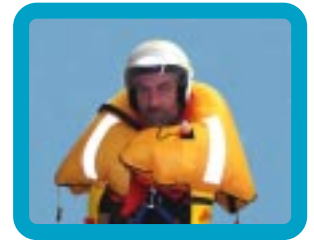

- SEASTAT+ "MAX" intelligent headset stations with auto voice control
- SEAPLUG submersible safety-release headset plugs and sockets
- SEASET+ tough waterproof headsets (personal radio PTT button optional)
- SEAMIC+ armoured submersible noise-cancelling microphones with high speed windshields

Call Comunica for details at +44 (0)1962 840084, sea@comunica.co.uk

**Each Comunica SEACOM+ radio/intercom system is modular, datasheets\rnllic
tailored from the widest available range of tough proven parts.**

SEACOM+ systems are in worldwide service with:

- Inshore rescue RIB crews
- RNLI rescue Hovercraft crews
- Airport rescue/Fire Fighter hovercraft and RIBs (HIAL, Deeside, Shannon etc)
- North Sea Oil/Gasfield support RIBs (Shell, Conoco etc)
- UK Fisheries Patrol RIBs (NW, NE etc)
- Customs launches and RIBs
- Police hovercraft, launches and RIBs (UK, Lithuania etc)
- Military RIBs (MoD Navy, Polish and Swedish Navies etc)
- Trinity House launch, etc....

DELTA+ ultralight protective helmet

SEACOM+ system modules include:

Amplifier equipment:

- **SEACOM+** Main Unit intercom amplifiers and single/multi-radio interfaces
- **SEASTAT+** intelligent, voice-controlled, helmet/headset crew stations, happy even in extreme noise backgrounds (eg RNLI's hovercraft 103dBA noise!)
- (for 2003 release), **FREECOM** single and multi-crew **WIRELESS** helmet/headset intercom

Headgear (all with SEAPLUG intelligent safety-release underwater-connect plugs):

- **DELTA+** protective communication helmets
- **SEASET+** tough waterproof headsets
- **GALLET F1E** Fire Fighters' communication helmets
- **OMEGA+** offshore racing helmets with Active Noise Reduction headphones

GALLET F1E Fire Fighter's helmet

Radio equipment:

- ICOM, Simrad, Sailor, Standard etc radios, (Marine VHF, PMR UHF/VHF, GSM phone, Airband etc)
- **SEAANT** waterproof Marine VHF, UHF, GSM phone etc antennae
- **SEASWITCH** hands-free foot/knee operated radio PTT pads

Ship audio equipment:

- **SEASPEAK** waterproof deck loudspeakers
- **SEAHAIL** 500m Loudhailer amplifier/speakers (with foghorn, Police siren etc if desired)

SEACOM+ system design for your special requirements:

- Can be tailored by us, with a priced proposal for you to check and refine
- Can range from a single crewman with an on-body radio (hands-free if you wish!) to a multi-radio, 10-crew system with intelligent, voice-controlled, headgear stations (silent until crew speak) and integral 500m foghorn/loudhailer....

Just be in touch and discuss your needs....
